Instructions:

- You can always color the bottle caps with marker or cover them with paper to make them the color you want for your creature.
- To make the bottle cap creatures, cut out the bear, sheep, and turtle shapes from the template and trace them on construction paper. Brown paper for the bear, white paper for the sheep, and green paper for the turtle.
- Cut out the shapes from the paper.
- Cut out a small white oval for the top of the sheep's head, two even smaller black ovals for the ears, a small pink circle for the nose, and two tiny black circles for the eyes.
- For the turtle, cut out sixteen small green circles for the shell, and two tiny black circles for the eyes. You can even use a hole punch if desired.
- For the bear, cut out two small light brown circles, a light brown oval, a small black oval for the nose, and two tiny black circles for the eyes.
- Glue a bottle cap on to the green paper turtle shape. Glue the green dots to the back of the bottle cap, and the black eyes to the turtle's head.
- Glue the finished turtle on to a craft stick if desired. If you don't have any craft sticks, don't worry.
- For the bear, glue a brown bottle cap to the bear shape. Glue the light brown circles for the ears and the light brown oval on the bottle cap as the bear's muzzle. Glue the small black oval on the light brown oval for the bear's nose. Glue the tiny black circles for the eyes, and draw the bear's mouth with a black marker.
- Glue the finished bear on to a craft stick.
- For the sheep, glue a white bottle cap on to the sheep shape. Glue the white oval, black ears, pink nose, and tiny black eyes on top of the bottle cap. Draw a mouth with a black marker.
- Glue the finished sheep on to a craft stick.
- You can use the template to continue making as many bottle cap creatures as you want. The possibilities of what you can create are endless.
- Now you have some bottle cap creatures!
