## Instructions:

- Use a lid to draw circles on pieces of construction paper.
- Cut the circles out.
- Use a smaller lid and draw circles on yellow construction paper.
- Cut the yellow circles out. These are the centers of your flowers.
- Glue the smaller circles onto the larger circles.
- Now glue the larger circles onto a larger piece of construction paper.
- Cut strips of green construction paper to make stems
- Glue them at angles on the larger construction paper.
- Now you have a paper posy.
